

PROTEX 20VNA PAPER

Protective Papers and Films

Protex 20VNA is a 20 mil latex saturated tape which has an external vinyl coating increasing its abrasion resistance. It is used in the protection of acrylic windows, canopies, windshields and certain metal and painted surfaces requiring increased protection. PROTEX 20VNA has proven to be excellent in protecting graphite composite surfaces and tooling from impact damage that may result in possible interlayer fracturing.
